MEMORANDUM OF CONVERSATION

SUBJECT: PFIAB

25X1 I talked with Wheaton Byers on this date regarding (1) COINS
[redacted] and (3) NRO NSCID. On the latter he said only that
he was looking forward to receiving the draft which WEC had
offered to send. With respect to the other two items, he said
the PFIAB "technical panel" (Messrs Baker, Foster, Land and
Teller) would meet at Dr. Baker's initiative on September 6 to
25X1 review COINS in the a.m. and [redacted] in the p.m. In the case
of COINS, Dr. Baker wishes to understand what is preventing
COINS from being as widely used as he believes it ought to be;
with respect to [redacted] he has -- for reasons not stated to
25X1 Mr. Byers -- some concerns of a technical nature.

[redacted]
